

Neuroscience Nursing Rounds

Assessment and Management of Intracerebral Hemorrhagic Stroke (ICH)

Presented by: Charmaine Martin, RN (EC)
Nurse Practitioner - Neurosurgery

TARGET AUDIENCE: ED, ICU, 7 WEST AND 7 SOUTH STAFF

Tuesday, March 11th, 2014

2:00 p.m. - 3:15 p.m.

Attendees from The Ottawa Hospital may come to
CPC 50 conference room in the Parkdale Clinic

Learning Objectives:

- Review the types and clinical presentations of hemorrhagic strokes.
- Review the neurological assessment and the critical role nurses play in the monitoring and management of this patient population.
- Outline the Canadian Best Practice Recommendations related to Intracerebral Hemorrhagic Stroke and highlight key elements for clinical practice.
- To discuss practical application of the guidelines to clinical cases to support translation of knowledge into practice.

College of Nurses Quality Assurance Certificate provided
