Implementation of Virtual Care in an Outpatient Rehabilitation Setting May 3, 2023, 0800-0900h

Objectives: Upon completion, participants will be able to:

1. Identify how to incorporate virtual care best practices into service delivery in a rapidly evolving context
2. Identify barriers and enablers to the implementation of the virtual care initiative in an outpatient rehabilitation setting
3. Understand how a co-design approach with a patient partner was used to implement stroke best practices
